

Need some help? – Rotary Grants

Seaford and Martello Seaford Rotary Clubs have a joint application process for grants.

Grants are available on a discretionary basis to support local organisations and individuals that will be of community or environmental benefit, or aim to raise aspirations, engender community spirit, or to meet specific needs which state, local authority, or specific charity funding are unable to provide.

There are no set limits to the amounts given by Rotary for local and worthy causes per year, although most grants are between £250-£500, and in respect of individuals we do not make direct cash payments.

Grants are made on a rolling basis, however, there may be occasions when there are no readily available funds, or where there may be more worthy requests.

It's best to contact Rotary to discuss your needs. If your request is exceptional or you need help with making an application, contact either of the Rotary Clubs using their website's Grant application form and guidance note or via the 'contact us' pages
