C74/11/24 Public Participation

Speaker	Statement
<i>Resident A</i>	<i>Item 11 South Hill Barn – natural habitat is suffering from popularity, more coaches using bridle way and an increased</i>

Speaker	Statement
	<i>online presence has seen an increase in visitors. Residents carried out a traffic survey over 10 days, May to October 9am to 6pm these times exclude locals. On one day residents recorded a large amount of traffic within one hour. There has been an influx of public visitors since 2018. Increase in coaches, Seven Sisters is listed as top 4 most visited area. BBQs have been increased and the number of people arriving by coach. Every week there is a new article on the area, suggesting walks there which is increasing visitors. Must not be forgotten no caravans or campers. Councillors need to control and facilitate to preserve the area.</i>
Town Council Response	Thanked the resident for their contribution.
Resident B	<i>Item 13 Cycle path – Salts currently has no cycle parking. Youth use bikes as their main source of independence, there is nowhere for them to store their bike safely. There is space available on the west side of the tennis courts which would be perfect for bike parking. Another location is South Hill Barn, as there are no cycle racks there. Referring to agenda item 11 - cycling would be a low impact form of sustainable transport to get to the Barn and would reduce the traffic.</i>
Town Council Response	Thanked the resident for their contribution.
Resident C	<i>Item 11 South Hill Barn –weaknesses and threats: location traffic, tourism, impact dark night skies and missing data. Traffic Survey being carried out is not representative of the summer months. Birling Gap have now banned coaches. Tour guides are now approaching South Hill Barn and parking there. The route is through residential houses and past schools. Climate issue with increased pollution. Lighting would be essential which would impact on wildlife, residents and the dark night skies. Coastal change has not been recognised in this report. Natural chalk action plan up there to protect our water supply, South East Water should be part of the project. Consider emergency services being part of the report, safety</i>

Speaker	Statement
	<i>planning and risk assessment, new videos dangerously close to the cliff edge. Anti-social behaviour - how will it be managed in this location. Of the 531 who responded, what was the result of residents who requested to do nothing to the area? This figure should have been within the report – those who live locally and are passionate about preserving it for future generations - residents want to be involved.</i>
Town Council Response	Thanked the resident for their contribution.
<i>Resident D</i>	<i>Item 7 Lewes Local Plan – speaking on behalf of a resident that is unable to attend – residents are concerned that the Lewes Local Plan will be considered by the Planning & Highways Committee only. Resident is concerned that only seven councillors are part of the Committee. Everyone should be involved within the Lewes Local Plan if we want to influence how our area develops - housing, employment, shops and developments. Resident has requested that each stage of the Lewes Local Plan goes to Full Council.</i>
Town Council Response	Thanked the resident for their contribution.
<i>Resident E</i>	<i>Item 11 South Hill Barn – Resident quoted an extract from the Lewes District Council 2004 Devolution Committee stating that Plumpton College does not wish to pursue its negotiations with South Hill Barn due to the high level of costs required to supply basic infrastructure – 4th August 2005 Seaford Town Council Planning & Highways Committee. The road leading up to South Hill Barn and especially the bottom end of the road could be a problem over ownership, this road is a bridle path – walkers at a higher risk and increased pollution. Remedial roof work was carried out to prevent the roof from collapsing in 2013 - 2014 as a temporary measure – raised concerns regarding the West Barn having a corrugated Asbestos roof which will need to be checked by a professional. Planning use of South Hill Barn is Agricultural land, if the land is used for commercial development – Seaford</i>

Speaker	Statement
	<i>Town Council will need to look into permitted development rights. Significant work will need to be carried out for the agricultural building to be fit for commercial purposes. Expensive expert advice needed. Upkeep costs will outweigh the income.</i>
Town Council Response	Thanked the resident for their contribution.
<i>Resident F</i>	<i>Agenda Item 11 / 14 / 16 and 17 – Resident raised concerns with the effectiveness of the Council, recent senior leader resignations and reduced staff capacity. Resident queried the exclusion of press & public agenda items and requested that the Council holds a referendum on the exempt and public exclusion policy items. The Council staff restructure is within the interest of Seaford residents, residents should have an input with the outcome. Resident feels that the Council is not including the public and not providing, such as with Armed Forces Day and the Martello toilet opening, and failing to reply to residents.</i>
Town Council Response	Thanked the resident for their contribution.
<i>Resident G</i>	<i>Item 11 South Hill Barn – Reading on behalf of a resident who is unable to attend - Increasing visitor numbers and social media interest. Numbers expected to grow. Holistic things need to be put in place to manage these challenges. The Barn does not need to become a visitor attraction in its own right, The View and the Coastguard Cottages are already an international draw. Profitable walking tours are advertised at Seaford Railway station. Residents are living with an increase in numbers. Please include residents when planning the Barn. To agree the Governance Plan – where are the Local residents? Local Residents have information and professional experience of the area – engage with the public on which ideas should be pursued, this will save officer time and money.</i>
Town Council Response	Thanked the resident for their contribution.

Speaker	Statement
<i>Resident G</i>	<i>Item 11 South Hill Barn – Resident discussed three things happening, meeting this evening about the Barn proposals, next week on Climate Change Sub-Committee agenda the decision whether or not to join the National Nature Reserve, which is being proposed, also the requirement to bring back Hope Gap Steps, which has financial implications and management control implications. Resident suggested deferring this discussion until we have a full picture of the area.</i>
Town Council Response	Thanked the resident for their contribution.
<i>Resident H</i>	<i>Item 11 South Hill Barn – Representing the Friends of the Dew Pond who are restoring the dew pond – last year a rare species of wildlife was found in the pond – Great Crested Newts were discovered, and they are protected by the Wildlife and Conservation Act. The water for the dew pond comes from the courtyard of South Hill Barn. Difficult to see how the area could be developed without harming the water quality or disturbing Great Crested Newt.</i>
Town Council Response	Thanked the resident for their contribution.

(7.31pm - Councillor S Dubas arrived)
